CHILDREN'S DAY PROGRAM

14TH November 2011

Canadian School

Children's Day Special Exploring Neighbourhood Medicinal Plants

Learning objective

To sensitize young minds towards neighbourhood medicinal plants of Bangalore city. Students from class 3rd grade, participated actively in half a day outdoor activities based workshop. Students explored nature, herbal garden, nursery, then they had a look at our Neighbourhood Medicinal Plants of Bangalore City CD ROM.

launched children's page in ENVIS (www.envis.frlht.org/children) website on the occasion of November 14th Children's day. This web pages comprises of puzzles, games, stories and album related to neighbourhood medicinal plants contribute their observations.

The intention of this page & space in the website is to enable more & more student communities to use ENVIS website platform for authentic information on Indian Medicinal Plants.

For more information write to us at [envis.frlht.org](http://www.envis.frlht.org)

Teachers: Ms. Christina Ranjan and Mr. David Abbott

1. Dear Ms. Suma & Team, Thank you so much for everything. This field trip was awesome. My favorite part was to get sprinkled in the mist chamber. I also liked the medicinal plants I bought. - Arav
2. In my field trip I learnt that there are lots of medicinal plants. I also learnt that there are different types of jasmine. The best part of the field trip was when I bought my plants. - Imogen
3. I think it was a good field trip. I liked learning about different plants and trees. The best part was when we into the mist chamber. - Paikea
4. I liked my field trip. The best part was when I bought my plants. - Vignesh
5. I like the part when I bought the plants and went into the mist zone. It was so hot but then you turned on the sprinklers. Thank you for the wonderful field trip. - Ishika
6. Thank you for explaining more about plants. - Lilli
7. I like the time when we looked at the plants and listen to different sounds. - Manon
8. I learnt about how we can use the medicinal plants when we get fever. I learnt a lot of things. My best part was buying plants. Thank you for teaching us. I want to come again and buy plants and find lot of new plants. - Hikaru
9. I liked all the flowers and trees. I had a good day in the field trip and looked at so many beautiful flowers - Alberte
10. Thank you for teaching more about plants. I learnt everything about plants. - Kenji
11. I learned a lot of plants names and saw many medicinal plants. My favorite plant was lotus. It was great fun! - Saeka
12. In the field trip I learnt about medicinal plants. The best part I liked was when we drew the pictures - Ali
13. My best part was the drawing time. I learnt a lot about medicine plants. It was great. - Jaewan
14. My best part was when we saw so many trees and plants, when I bought my plants and we went to the green house. - Juan
15. Ms. Suma & Team took us all around the plants nursery. I hung on to almost every word she said! My favorite part was when the sprinklers were on and it was like rain! - Nidhi

16. The best part I liked was the sprinklers sprinkling on us. I also liked when the ducks came. - Thor
17. I liked the green houses because of the sprinklers. I learned that the plant beds have baby plants and seeds so we should not step on it. I learnt that the white flower which we saw is used for making perfume. I saw the purple Velcro plant part which sticks and helps in spreading seeds. - Ananya
18. I learned that some plants like cactus in the desert can survive because they store water in their bodies and they have spikes to protect themselves. My favorite parts were when we bought our medicinal plants and in the green houses when sprinklers started spraying water! - Tasnuva
19. My favorite part of the fieldtrip was when we went into the two green houses and we got sprayed by the sprinklers. - Alena
20. I learnt a lot of things. There were lots of nice trees and plants. My best part was that we went inside the green house. I loved my field trip. - Zadeed
21. I loved the field trip and it was good. The three plants I bought are very nice. One of my plant is a tree I call it the magical tree because the leaves are rough, blooms in the night..... - Eloi
22. My most favorite part of the field trip was when we got wet in the mist room. When we got to buy our plants I was very happy to get my plant. - Lia
23. I liked the cold place or the mist room. I loved the sprinklers. I find my plant awesome. - Callum
24. I liked the mist room and the time when we drew pictures. - Anika
25. Thank you for teaching about plants. My favorite part of the field trip was when we bought medicinal plants because I knew lots of names and how it looks again. I want to come there again. - Yui
26. It was good I learnt a lot about plants. I liked it. - Ridaa
27. It was so much fun! I learned about many plants. My favorite part was mist room. - Tamaki
28. My favorite part was when I was in the green house and the sprinklers were on and sprayed. - Monty
29. Having those fun activities was good. I will give 5 stars to this medicinal plants garden. Thank you Ms. Suma. - Alexis
30. I learnt that plants live in different temperature and weather (like in deserts, forests and rainforests). My favorite part was when we got to pick our own plants. - Nikhita
