

Medicinal Plant species of conservation concern identified for Jammu & Kashmir (JK):

CAMP workshops were held during 1998 at Kullu and MaT 2003 at Shimla to assess the threat status of prioritised Medicinal plants of Jammu & Kashmir. During this process 62 species were assigned the status of Near Threatened (NT) and above.

LEGEND	
EX	Extinct
CR	Critically Endangered
EN	Endangered
VU	Vulnerable
NT	Near Threatened
G	Global
H	Herb
S	Shrub
T	Tree
C	Climber
T	Recorded in Trade
H	High volume Traded(>100)

62 *Saussurea gossypiphora* D.Don 0 JK H NT -

Of these 62 species, 18 species have a global RL status as these are endemic (or nearly so) to the state/region. 9 species have been assigned Critically Endangered (CR) status, 22 species are Endangered (EN), 28 species are Vulnerable (VU) and 3 species are Near Threatened (NT). 17 of these Red Listed medicinal plant species have been recorded in high volume trade, as per the national level trade study.
