

22 MAY 2015
INTERNATIONAL DAY
FOR BIOLOGICAL DIVERSITY
BIODIVERSITY FOR SUSTAINABLE
DEVELOPMENT

INTERNATIONAL YEAR OF BIO DIVERSITY 2015

Just double click!!

Explore your fascinating neighbourhood plant world

- More than 300 commonly seen medicinal plants species of the city.
- You can easily locate them in and around your home gardens, parks, road sides, lakesides, open area, temples etc.
- 26000 plus local names for these plants from eight different languages
- More than 700 colourful images of these plants in store.

ADDITIONAL FEATURE: The 'Greenpad'

Keen observers like you, can jot down your field notes related to identification features, plant interactions, cultural uses, plant pictures etc. You can create reports, databases and projects too!

Send us your field notes. Best notes will be published in our next release and website

This CD is developed based on the field work by the expert botanists, Encyclopedia on Indian Medicinal Plants and reliable scientific publications.

series from Indian Medicinal Plants Encyclopedia www.medicinalplants.in
